

European event for the 25th anniversary of Fan coaching

Citizen Debate Day “Football, Culture and Prevention” 19th June, Liège

*Organised by ASBL Fan coaching-Eurofan
in partnership with the **city of Liège** and the **European Forum for Urban Security (Efus)** in collaboration with **the University of Liège** and **R. Standard CL.***

Actors in the field of prevention, researchers in human sciences, sports professionals and representatives of Civil Society will come together to discuss **the practice of football as a cultural and social activity that generates collective phenomena such as “supporterism” and violence.** To be prepared for such phenomena, it is necessary to **develop specific strategies of prevention when sports events take place.**

In particular, the debates will address the way in which local authorities and football clubs can utilise **culture as a tool of prevention in sport for young football supporters.**

This event is incorporated within the framework of the European Forum of Urban Security’s initiative **“Sharing the Manifesto”**, which aims to encourage a dialogue between local European authorities, Civil Society and other stakeholders (including the private sector) in the urban sector on questions of security. The meeting will be based on the recommendations **“the Prevention of Violence in Sport”** and **“Art, Culture and Prevention”** from the *manifesto of Aubervilliers and Saint-Denis*, adopted during the international conference organised by Efus in December 2012.

The Citizen Debate Day on Sport, Culture and Prevention will take place on Wednesday the 19th June, from 9am to 6pm, after an introductory film and debate evening on Tuesday 18th June at 8pm.

Simultaneous French and English translation available
